

Saving Our Backyard Birds

© Photo by Patricia Clark

February 16, 6-8 pm

Madelyn Helling Library, 980 Helling Way, Nevada City

- What birds are in your backyard?
- Backyard habitats of Nevada County.
- Backyard hazards and how can they be prevented.
- Problems with birds: nesting or roosting issues, garden problems, fish-eating birds, keeping chickens safe, etc.
- Bird diseases: how are they spread and risks to humans or domestic animals.
- Injured or sick birds - what to do.
- Does that baby bird need to be rescued?
- Bird relationships: predator vs. prey, social birds, parent/offspring,
- The value of conservation and wildlife rehabilitation.

This is a two-hour slide presentation with a break in between where a member of our education team will introduce a Great Horned Owl wildlife ambassador.

Presenter: Linda Adams, Avian Biologist,
Wildlife Rehabilitation & Release, Songbird and Education Teams
